

Acme Corporation

Finance — Expense & Procurement Policy

Document ID: ACME-POL-FIN-009 | Version: 1.6 | Effective Date: April 1, 2026 | Classification: Internal Use Only

1. Purpose

This policy governs how Acme employees request, approve, and report business expenses and how purchases of goods and services are procured on behalf of the company.

2. Expense Approval Thresholds

Expense Amount	Required Approval	Turnaround Target
Under \$100	Auto-approved, manager notified	Immediate
\$100 - \$999	Direct manager approval	2 business days
\$1,000 - \$9,999	Director approval	3 business days
\$10,000 - \$49,999	VP approval + Finance review	5 business days
\$50,000 and above	CFO approval + Procurement committee	10 business days

3. Travel Expense Guidelines

- Airfare must be booked in economy class for flights under 6 hours; premium economy is permitted for flights over 6 hours with director approval.
- Hotel expenses are reimbursed up to \$275 per night in major metro areas and \$180 per night elsewhere, receipts required for all amounts.
- Meal per diem is \$75 per day domestic and \$95 per day international, itemized receipts not required under \$25.
- Ground transportation should default to public transit or rideshare economy tiers; luxury rideshare tiers are not reimbursable.

4. Corporate Card Policy

Employees with a recurring business travel need may request a corporate card through Finance Ops. All corporate card transactions must be reconciled in the Expensify system within 15 calendar days of the transaction date. Cards not reconciled within 45 days are automatically suspended pending manager review.

5. Software and SaaS Procurement

All new software purchases, including free-tier signups that may later convert to paid plans, must be logged in the Software Asset Registry and reviewed by IT Security for data handling and vendor risk before purchase, regardless of dollar amount. This applies in addition to, not instead of, the standard expense approval thresholds in Section 2. Procurement of any tool that will process Confidential or Restricted data (as classified in the IT Security Policy, ACME-POL-IT-014) requires a completed vendor security questionnaire prior to approval.

6. Prohibited Expenses

- Personal entertainment, gym memberships, or spa services.
- Alcohol at a value exceeding \$50 per event when client entertainment is involved.
- Traffic violations, parking tickets, or other fines incurred during business travel.
- First-class airfare under any circumstance without CFO pre-approval.

7. Audit and Non-Compliance

Finance conducts quarterly random audits of expense reports. Employees found submitting fraudulent or materially inaccurate expense claims are subject to disciplinary action up to and including termination, and Finance reserves the right to claw back reimbursed amounts through payroll deduction where permitted by local law.
