Human Resources — Remote Work & Home Office Equipment Policy

Document ID: ACME-POL-HR-007 | Version: 2.1 | Effective Date: March 3, 2026 | Classification: Internal Use Only

1. Purpose

This policy defines eligibility, expectations, and equipment support for employees who work remotely on a full-time, hybrid, or occasional basis. It is administered by Human Resources in coordination with the IT Helpdesk and People Managers.

2. Eligibility and Work Arrangements

Employees may request one of three arrangements, subject to manager approval: Fully Remote (no regular office attendance required), Hybrid (minimum 2 days per week in an Acme office), or Office-Based (5 days per week on-site). Remote work eligibility is reviewed at the start of each fiscal year and may be revoked if role requirements change.

3. Core Working Hours and Availability

Remote and hybrid employees must be reachable via Slack and calendar during their team's designated core hours, typically 10:00 AM to 3:00 PM local time, regardless of arrangement. Employees working across time zones from their team should agree on an overlap window with their manager in writing.

4. Home Office Equipment and Stipend

Acme provides a one-time home office setup stipend of \$750 for newly remote or hybrid employees, covering desks, chairs, and monitors. In addition, employees receive an ongoing monthly remote work stipend of \$85 to offset internet and utility costs. Stipend requests are submitted through the Workday Expense module under category 'Remote Equipment.'

- Company-issued laptop, keyboard, and mouse remain Acme property and must be returned upon separation.
- Employees are responsible for maintaining a private, secure internet connection with a minimum of 25 Mbps download speed.
- Personal printers, webcams, and headsets are eligible for stipend reimbursement up to \$150 combined per calendar year.

5. Remote Work and Network Security Requirements

Employees working outside an Acme office must connect to company systems using the company-approved VPN client at all times when accessing internal applications. Use of public Wi-Fi

(cafes, airports, hotels) for company business is discouraged; if unavoidable, VPN connection is mandatory before accessing any internal system. Employees must not use personal, unmanaged devices to access Confidential or Restricted data as defined in the IT Security Policy (ACME-POL-IT-014).

6. International Remote Work

Employees relocating to work from a country other than their country of employment record must receive prior written approval from HR and Legal at least 30 days in advance, due to tax, payroll, and employment law implications. Unapproved international remote work may result in suspension of system access and disciplinary review.

7. Performance and Check-ins

Managers of remote and hybrid employees are expected to conduct at least one 1:1 check-in per week and a documented quarterly performance conversation. Remote employees are held to the same performance standards, promotion criteria, and review cycles as office-based employees; remote status must never be a factor in performance ratings.

8. Equipment Return and Offboarding

Item	Return Window	Notes
Company laptop	Within 5 business days	Ship via prepaid label from IT Helpdesk
Monitor / peripherals	Within 10 business days	Optional purchase at depreciated value
Access badge	Final day of employment	Deactivated automatically at 11:59 PM
